## STOCKS AND MINES.

### CARIBOO LAKE DITCH AND MINING COMPANY.

Location of Works, North Fork of Quesnelle River.

ASSESSMENT NO. I.

NOTICE IS HEREBY GIVEN, THAT AT A meeting of the Trustees of said company held on the 29th day of May, 1880, the 1st assessment of twenty-five cents per share was levied upon the capital stock of said company, payable forthwith to Charles Wilson, Secretary, at the Company's office, Barkerville, B. C.

Any stock upon which said assessment shall remain unpaid on the 29th day of June, 1880, shall be deemed delinquent, and will be duly advertised for sale at Public Auction, and unless payment be made before, will be sold on the 23rd day of July, 1880, to pay the delinquent assessment, together with costs of advertising and expenses of the sale.

CHARLES WILSON, Secretary.
Barkerville, B.C., 30th May, 1880. je13dw

TO THE SHAREHOLDERS OF THE

### QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1250 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.

JAS. REID, President.
R. J. SKINNER, Secty.
Quesnelle, B.C., 3rd May, 1880.

I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof.

## THE RESIDENT ENGINEER.

B. W. PEARSE, Esq., late resident engineer of the Dominion government, having resigned his office has retired to enjoy the sweets of private life. Mr. PEARSE came to the province about 30 years ago and has been in the public service for a period extending over nearly the whole of that time. In the Hudson Bay Co.'s days he filled the responsible position of assistant surveyor general of the Colony of Vancouver Island for many years, subsequently becoming surveyor general. After the union of the colonies of Vancouver Island and British Columbia Mr. PEARSE continued to act as surveyor general, and upon the confederation of the province with Canada he continued to discharge his arduous duties at the lands and works office until promoted to the position of resident engineer of the Dominion in British Columbia. For the past eight years Mr. PEARSE has served the Dominion with the same zeal, fidelity and integrity that distinguished his official career under three successive local governments; and his relinquishment of the cares of office is an entirely voluntary act on his part. In his retirement Mr. PEARSE enjoys the confidence and kindly wishes of the chief of his department at Ottawa, and he will be followed to private life by the good opinion of all who have come in contact with him either socially or officially. To the general tribute of respect to this faithful officer weadd our own, and venture to hope that Mr. PEARSE's successor will discharge the duties that appertain to the position with the same fidelity, earnestness and devotedness that have distinguished him.

## MR. DECOSMOS' RAILWAY SPEECH.

We have received a copy of the railway speech of Mr. DECOMOS, M. P., delivered in the Ottawa House on the 16th and 19th April last. The evidence of research and careful preparation, and the sensible arguments advanced by the hon. gentleman are very creditable to him. A great deal of valuable statistical information is contained in the speech, and we advise all who have been favored with a copy to first read and then file the document away as a book of reference. The value of British Columbia to the Dominion and its resources are very clearly stated in the speech and as we rise from its purusal we are compelled to exclaim with Lord Dufferin, "This is, indeed, a magnificent province."

## FRIGHTFUL PUNISHMENT.

Common humanity demands that we should refrain from further lacerating the wounded feelings of our unfortunate contemporary.—*Standard, yesterday.*

We feel deeply grateful to our contemporary for his forbearance. The "lacerating" we received at his hands was of so terrible a character that we can imagine no punishment more severe —except, perhaps, being kicked by a grasshopper, fanned into eternity by the wing of a butterfly, or pelted to death with rose-leaves.

### Letter from Stanley.

CARIBOO, B.C., June 1880.

TO THE EDITOR OF THE COLONIST:—Sir—The talk of dull times still keeps up in Stanley and other parts of the country that I have been in. Though the people of Stanley are satisfied that there is gold in paying quantities beneath their little town they are like the thirsty traveler who sat upon the surface and looked down into the deep well and seeing the water said, "there is what I want, but I have no means to get it." The people of Stanley need money to help them to make a drain so so to get at what they want. About twenty-five or thirty thousand dollars would open up mines that would yield hundreds of thousands of dollars, and we are unable to raise that small sum to enable us to get the large sum. Now, Mr. Editor, can you suggest some plan that will enable us to develop diggings which will give employment to a population and yield our government a revenue so as to secure a good school at Stanley. The dull times appear to have kept the children from making much progress with their studies. But it don't appear natural that dull times should make a child's intellect dull. Some of the children in Stanley were kept from, or rather taken from, school and taught by their relations and they have improved very much, which goes to show that there is some other fault than the want of intellect or dulness that kept them back at school. A few words in your paper might cause the superintendent of education to inform the public why the children that are attending school do not progress as fast as those that are taught at home. The children's parents appear to be dissatisfied with their teacher. I am willing to pay my school tax and would like to see the rising generation educated; but I want my money's worth. OBSERVER.

### The Best and Only Remedy.

628 L. St., WASHINGTON, D.C., June 8th, 1879.

H. H. WARNER & Co.—GENTLEMEN:—I have known of the remedy now called Warner's Safe Kidney and Liver Cure, for the past eight months, and can personally testify to its efficiency in kidney and liver troubles. I can truthfully say that in my opinion it is the best and only efficient remedy for such troubles ever brought before the public.

Yours, very truly,
6 COL. JOHN K. MCCHESNEY.

## SUN SPOTS AND CYCLONES.

### The Approaching Perihelion of Four Great Planets Described.

There seems to be a widespread interest in this coming (and now very near) perihelion of the four larger planets. It is claimed that this rare occurrence—something unparalleled during the Christian era—will so excite the electric surface of that great and governing luminary, and all his planetary host, as to cause visible disturbances both in the sun and some of the planets. Is this claim substantiated by facts? We have had theory for some time, but this is not so convincing as the hard facts, some of which, from our own observations, we will give for what they are worth. It is well known that hurricanes of unprecedented violence have occurred during the past spring in the Western and Southwestern States—some of them destroying many lives and entire towns.

Doubtless amateurs as well as astronomers will become interested in this present planetary perihelion, which is said by the astronomers to exceed in interest any such conjunction within the history of the last 2,000 years; for all four planets have their nearest approach almost simultaneously. If it becomes an established fact that sun spots mean tornadoes and ruin to property and life, their first approach upon the sun's disc will be watched with interest. Amateurs with inverting telescopes properly shaded should examine the upper part, and with erecting telescopes the lower part, of the sun's disk in the morning, for the first appearance of the spots; and as the sun seems to make a half revolution in twelve hours, it will be the lower side at night, or if erect, the upper. This is contrary to the usual method of viewing the stars and planets, which are best seen at a high altitude.

For the aid of those who wish to investigate these increasingly interesting phenomena, we would say that it would take but a few minutes, morning and evening, to make a sketch of the spots, location, proportion, number, etc. Differences each day could thus be noted. Large spots can sometimes be seen with a smoked glass. The extent and rapidity with which these "spots" occur are an indication, according to scientists, of their close connection with the electro-magnetic conditions of our own world. An amateur who was so minded might make a good and trustworthy showing by sketching while viewing. While searching, on Monday morning, in the proper place for incoming spots, we saw a spot, covering, with its penumbra, about 30 seconds of arc in size; and about the same distance from the sun's edge when discovered; whilst the changing cluster of last week was retreating at the other side, in a white and faded condition. Tuesday morning this spot is advancing and increasing. We supposed that a spot of 2 or 3 minutes of arc would show a bite out of the sun's disk if seen at the right time.

Before we stop, it might be best to inquire, if these cyclones continue greatly to increase, and to work this way, about a safe retreat. Some have fled to the cellar, when the ominous cloud approached, and their frame dwellings went from the foundation and left them unharmed. But it is very evident that this could not always be the case. Neither do we like the fate of the family who recently fled to a cave for fear of their house being destroyed, and a part were drowned and the rest nearly so. If a man must be humbled down into the caves and holes of the earth for fear of these swift and majestic visitations, the intelligent, if not the scientific, man would leave off the lofty, crowning elevation of his house and put it into a strong brick or stone-arched room, of easy access from his house, suitably drained and ventilated, and not much above the earth's surface—and built without iron. We think a "pyramid" would do. According to ancient and holy writ, lofty cedars, high towers, and the lofty looks of a man have got to come down. But when? In the "day of the Lord," if we know when that is. Possibly the insurance companies, noting the impressive electric phenomena connected with many of these terrific cyclones, may find cause to rearrange their policies, to meet the possibilities of lightning in another shape. We shall endeavor to exhibit on the street, from time to time this season, these solar phenomena, as well as the moon and planets.—*Hartford Times.*

### Dining with the Queen.

Although a greatly coveted honor, it appears that a dinner with the British Queen does not afford much gustatory enjoyment. A distinguished divine, who occasionally preaches at Windsor and dines and sleeps there afterwards, says the dinner is a remarkable unsatisfactory affair to a hungry man. It is not considered etiquette to continue eating of any particular course after the Queen has partaken of it to her satisfaction, and as her Majesty eats very little the courses are hurried ever. After dinner there is hardly time to take even one glass of wine before coffee is brought in. The Queen does not put her cup on the table, but sips a little as the servant holds it on the salver. Then her Majesty rises, and of course the guests all rise and stand back from the table. The Queen then makes the round of the room, stopping to talk for a few minutes to any one of the guests whom she may delight to honor, and then goes out leaving the guests to amuse themselves as they like for the evening.

### The Wreck of the Thrasher.

[Special Dispatch to The Colonist.]

NANAIMO, June 16.

The tug Beaver arrived from the scene of the wreck, having in tow the Dominion lighter with a quantity of rope, rigging, anchors, chains, blocks, stores and everything that could be saved at low water this morning. The Thrasher lies in a most precarious position at high tide, being apparently full of water, nearly all her after cabins being covered. Mr. Peck, collecter of customs and receiver of wrecks, was personally superintending all that was done this morning and is certainly deserving of great praise for the interest he exhibited. Mr. Peck left on the Etta White for Victoria with Capt. Bosworth.

### San Francisco Stock Market.

[Exclusive Dispatch to The Colonist.]

SAN FRANCISCO, July 16.—Ophir 7¼; Mex 7⅞; G & C 2.80; B & B 7⅜; Cala 2; Savage 1.45; Con Va 2.80; Chollar 2.05; Potosi 1.65; H & N 2.80; Point 1.05; Jacket 3.95; Impl 20c; Kentuck 1⅛; Alpha 4; Belcher 1.30; S Nev 10¾; Utah 8⅝; Bullion 6.80; Exchq 1.30; Overman 1.05; Justice 60; Union 20½; Alta 1.40; Julia 40; Scorpion 1.30; Quinn 2.45; Benton 65; Caledonia 30; S Hill 25; Andes 75c.

### Victoria Garrison Artillery.

Orders have been issued from headquarters at Ottawa to the Victoria Battery to encamp for ten days for instruction and practice. We understand that the camp will be formed on the 31st inst. at Macauley's Point Battery.

SHIPPING ON THE WAY.—The barque Rover of the Seas from London, barque Adulia from Liverpool and barque Signet from Montreal are on the way to the consignment of Welch, Rithet & Co. The barque Brierly Hill from London, *via* Honolulu, consigned to the Hudson Bay Company, is due.

THE Rev. Father Bouchard will preach to-morrow evening at St. Andrew's cathedral, Humboldt street, the proceeds of the offertory being devoted to the charitable fund.

SEALED TENDERS are asked by the City Council until the 21st inst. for the construction of culverts on Pembroke, Pandora, Douglas, Government, Toronto, Princess and Michigan streets.

FOR SHANGHAE.—The bark Mattie Mcleay will sail for the above port on the 23d inst. She has superior accommodation for cabin and steerage passengers.

### Municipal Police Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, July 16.

Yees Ches, the Indian charged with being implicated in the Neah Bay murder, was again brought up.

Mr. Theo. Davie, who appeared for the prisoner, called his honor's attention to the fact that the present proceedings had been taken under the Indictable Offences Act, which gave his honor jurisdiction only within the Province.

The Superintendent of Police stated that he had received a communication from the Indian Agent in Washington Territory informing him that the trial of the prisoner, if extradited, would be outside the jurisdiction of the territorial courts and the opinion of the hon. the Secretary of State for the United States would have to be obtained before further action was taken.

His Honor intimated that he would further remand the prisoner into custody.

The Superintendent of Police said that the prisoner belonged to the west coast of the Island and there was good reason to believe that he was guilty of the crime with which he was charged.

Mr. Davie submitted that if his honor remanded the prisoner a pre-supposition would be established that the Court had jurisdiction in the matter.

His Honor said that in former instances the channel of communication had been through the ministers of the two Governments. He would remand the prisoner for one day in order to afford him an opportunity of looking into the law bearing upon the case.

The prisoner was then remanded until to-morrow (Saturday).

The only other case was that of a d. and d. who admitted the charge and paid the usual sum.

### County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, July 16.

C. Beaven *vs.* Winch.—Suit to recover $20 for material, &c. Judgment for plaintiff for $8.50.

Mansell *vs.* Brophy.—Action to recover $18.25 for goods sold and delivered. Defendant failed to appear. Judgment for plaintiff.

J. C. Keays *vs.* J. Bennett.—Action to recover $43, amount alleged to be due on promissory note. Defendant failed to appear. Judgment entered for plaintiff.

J. S. Drummond *vs.* W. Lorimer.—Action to recover $49.62, value of goods supplied. Judgment for plaintiff.

Monck *vs.* Jones.—Action to recover $21, balance of account for material supplied and work done. Judgment for plaintiff in the sum of $11.55.

A. Gilmore *vs.* W. Fisher and J. H. Innes.—The hearing of this case, which was an appeal from the decision of the defendants rendered in Esquimalt Licensing Court, was postponed until Tuesday next.

### The Wreck of the Thrasher.

Capt. Bosworth of the wrecked ship Thrasher arrived last evening from Nanaimo on the steamer Etta White. The captain is naturally feeling much depressed at the disaster that has befallen his noble ship. He says that she struck heaviiy on the extreme eastern end of Gabriola reef. Fifty feet to the eastward would have prevented the stranding. The Fraser river current, which sets heavily towards the reef, threw the ship off her course. The tide ebbs and flows in the vessel and she lies hard and fast. At high tide the after part is full of water; but he has hopes of saving her. She is a staunch vessel only four years old and is classed A1. Last evening, in company with Mr. Francis the U. S. consul, Mr. Rithet, and Mr. Peck, receiver of wrecks, Captain Bosworth waited upon Admiral Stirling and solicited aid in getting the ship off. The Admiral responded in the affirmative without the slightest hesitation. He directed the the gunvessel Rocket to be got ready at once, and to proceed with extra hands, a steam pump, a barge and other apparatus to the scene of disaster. The Rocket will sail at 8 o'clock this morning. The Etta White started back at 3 o'clock this morning.

### The Skagot Mines.

Latest advices received from Skaget state that mining operations are nearly at a stand-still owing to the high stage of water in the various creeks. On the 6th inst. Mr. D. Lynch, who arrived here on Thursday last, whilst out prospecting came across a well known miner named Alexander Swift, who had lost his way in the mountains and was in a pitiable condition. It seems that the unfortunate man, after losing his way, wandered about for 29 days making futile attempts to gain some clue to one of the trails leading to Ruby Creek. In the course of time his scant supply of provisions gave out and for many successive days he was compelled to depend upon herbs for a subsistence. When found he was in such a weak and helpless condition that he had to be packed into camp His body was terribly emaciated and a. ost in a state of nudity.

THE MAIL CONTRACT. — There are many rumors afloat as to the future of the ocean mail service. It is understood that the Dakota is now on her last trip to this port, and as the Pacific Mail Co.'s contract with the Dominion Government will end with the next trip of the Idaho, it is more than likely that the first steamer in the Goodall, Perkins & Co.'s line will leave San Francisco on the 30th inst. The names of the boats that will be employed in the service, are not known; but it is known that none of the new class vessels will be placed on the route.

IMPORTANT TO VOTERS.—The collector of votes for Victoria and Esquimalt districts has prepared a list of the names of voters proposed to be struck off the registers at the next Court of Revision. The list may be seen at the County Court office, Bastion Square.

FOR DEPARTURE BAY.—The following vessels, in the order mentioned, are either on the way from San Francisco to Departure Bay or under engagements to load Wellington coal there:—bark Germania, Ship Challenger, bark Sierra Nevada, ship Don Nicolas.

STAMP ACT.—Cards of the scale of fees payable under the Stamp Act may be obtained at *The Colonist* stationery store. Every business man should have at least one. *

THE steamship Alexander will leave at 9 o'clock this morning for Departure Bay, having on board Mr. and Miss Dunsmuir and Lieut. Diggle and Mrs. Diggle.

THE rifle match between the Militia and Fleet commences at Clover Point range at half-past 3 o'clock this afternoon.

ENGLAND.

LONDON, July 14.—The House of Commons met at noon and went into committee of the whole on the compensation for disturbance bill. Two hours were consumed in a dispute over a ruling of the chairman of the committee which on appeal was decided against the chairman. Irish members denounced the government course regarding the bill as weak and irresolute.

Parnell said that the bill as amended last night ought to be rejected.

Lord Edward Cavendish, liberal, brother of Lord Hartington, thought that as matters stood the passage of the bill was hopeless, and after the attitude assumed by parliament the government would be justified in abandoning the measure.

Gladstone said that if the rejection of the bill was desired a proper motion to that end ought to be made. He urged the House to go forward with the details of the bill and not to tolerate continued violations of rules and procedure, as the character of the House was concerned in upholding the established methods of transacting business.

The Irish members talked out the session of the committee, preventing action on the government's amendment.

Gladstone said that the government was determined to persevere with it and not to be thwarted by this sort of opposition. He appointed to-morrow for the continuation of the debate.

LONDON, July 15.—Clark, Rathbone and Fisher will leave Wimbledon on the 22nd. They believe that a strong team can be selected without them.

WIMBLEDON, July 15.—In the St. Leger competition Brown and Halford have tied Jackson's score of 50, the highest possible total.

Heavy rains have caused great damage to hay and other crops in the midlands of Warwickshire and Leicestershire and other parts of the provinces.

LONDON, July 15.—Argentine securities were dull yesterday on rumors of an outbreak of a fresh revolution in Buenos Ayres.

WALES.

LONDON, July 15.—An explosion occurred at 1:20 this morning in the London and South Wales Colliery Co.'s new black vein pit at Risca, six miles from Newport. The shock was very violent. It is supposed that one hundred and nineteen men were in the pit at the time and there is scarcely a probability that any will be saved. One body has been found at the bottom of the shaft. Ventilation has been restored in the mine with the view of exploring for bodies.

A dispatch from Cardiff says 128 men were in the pit of the London and South Wales Colliery Co.'s mines at the time of the explosion and it is believed all perished.

NEW YORK, July 15.—Special from London says of the explosion in Risca colliery: "About 8 o'clock the bodies of three miners were found near the bottom of the shaft, but they have not been brought up. The force of the explosion was terrific, blowing to atoms the ventilating apparatus. There is no hope that the men may escape. While the men were at work yesterday evening the atmosphere was noticed to be heavy and overcharged. At midnight it was dull as a November day. The scenes about the mine are reported heartrending. There is a large throng of people present composed in great part of relatives and friends of the imprisoned miners. Among them are many women bewailing the fate of husbands and sons, while little children are asking anxiously concerning their fathers. Everything possible is being done to expedite the rescue of the men, but scarcely anyone hopes to find any of the miners alive.

LONDON, July 15.—It is thought that 200 colliers were in the mine at 5 p.m. Only three bodies has been recovered.

IRELAND.

DUBLIN, July 15.—Excessive rains have prevailed nearly all over Ireland during the past fortnight and are beginning to excite serious apprehensions in regard to the harvest.

ITALY.

ROME, July 15.—At the municipal election in Vicenega the clericals have returned a majority of their candidates. They have gained also a great victory at Venice, returning ten clericals. Only five liberals were returned to the chamber of deputies. Financial provisions to meet any deficiency which the abolition of the grist tax may occasion have been voted by 178 to 78.

It is stated that the Pope intends issuing an encyclical to Belgian bishops approving their course and encouraging them to persevere in defending the right of the Church.

RUSSIA.

ST. PETERSBURG, July 15.—Private advices report that Chung How has been liberated and degraded from the first to the fourth rank—a mandarin nevertheless. The war party is in the ascendant.

Admiral Lessofsky and staff started for Moscow whence they will go to meet the cruiser Europe to join the Pacific squadron, of which Admiral Lessofsky will take command.

ARNPRIOR, Ont., July 15.—Twenty stores in the business part of the town were burned to-day. Loss, $50,000.

### Russia's Western Frontier.

[London Telegraph.]

Russia is fortifying her western frontier with almost feverish haste and at enormous cost. Kowno and Lenczyca are rapidly waxing into strongholds of extraordinary dimensions and strength. Kowno is destined to serve at once as the basis of possible operations against East Prussia, and as the rallying point for resistance against any German invasion from that frontier province. It is to consist of a huge citadel of several forts crowning the surrounding heights, and of a tete-de-pont covering the railway bridge over the Niemen, and protecting the three railway lines leading to Wirbalden, Warsaw and Wilna. Lenczyca will be made a fortress of the second class, and supersede Lamose as one of the "strong places" constituting the Polish Quadrilateral. In Kieff the provisional works erected on the hights commanding the Dnieper are being rapidly converted into massive forts with stone escarpments, and Fort Lissahora is undergoing complete reconstruction. To the defenses of Ivangorod five huge forts are being added, two on the left bank of the Vistula and three on the right bank of the Wieprz. Two new forts are in course of construction at Novo-Georgievsk. The cost of the development given to the inner defenses of Brest-Litowsk is appraised in the fortification estimates for 1880 at the sum of £48,000. Magazines are to be erected for the storing of 1,000,000 pounds of bread daily. It is proposed to complete these gigantic preparations for a western war by the spring of 1882.

The splendid villa inhabited by Rossini at Passy was put up for sale recently. In accordance with the wishes of the late Mme. Rossini the vast domain was divided in three parts. The hotel, with its outer premises and garden, forming the first lot, was knocked down for 200,000f.

The Irish population at the end of May was 5,363,590, having been reduced again during the last three months by emigration. This brings it back almost to the numbers of 1803—5,216,329, since which time it had continued to increase. The lowest recorded total, however, was in 1875, or 5, 309,494.

This year the opium crop in China will, the Bombay *Gazette* believes, be *nil* or next to that, while Central India promises 50,000 chests, though, as usual, the astute Marwarees have been loudly proclaiming a tenanna crop. But the fact is that new opium is coming this year in increased quantities.

Victor Hugo has written one of his epigrammatic epistles to the committee of Nolay charged with erecting a statute to Carnot. "You are doing a noble action. The erection of a monument to Carnot is the glorification of the French revolution. The French revolution is a new world. Victor Hugo."

Mr. Spurgeon says:—I see it publicly stated by men who call themselves Christians that it would be advisable for Christians to frequent the theatre that the character of the drama might be raised. The suggestion is about as sensible as if we were bidden to pour a bottle of lavender water into a great sewer to improve its aroma.

### In the Mountains of the Moon.

With a good three-inch telescope, and a little practice in the management of the magnifying powers, one may easily see all the famous mountains of the moon, and most of the strange-looking objects that have at different times been taken for fortifications, roads and others works of man. There are a number of excellent maps of the moon, by whose aid every conspicuous object may be recognized. The point ofgreatest interest to the observer is the long, jagged line, called the terminator, that marks the sharp division between day and night. If you watch that line for an hour or two of you will be astonished at the changes that have taken place under your eye. You will see the sunshine creeping down the steep inner side of a ringed mountain, until the floor of the vast basin, which had before been perfectly black looking like a hole right through the moon, is reached and lighted up; while the rocky flank of the central peak, or cluster of peaks, come into view, and begin to cast long, spiry shadows over the crater floor.

Around all these seas cluster ringed mountains, craters, and mountain ranges, whose shadows are thrown upon their level surfaces, varying in length and shape and number with every hour. The whole southern quarter of the moon is occupied by the great mountain region that has the tremendous crater Tycho for its centre. Here the amateur telescope may spend hours among the glittering peaks. It is like looking down into the heart of the Adirondacks, with the mountains increased ten-fold in magnitude, and a thousand-fold in number. The mountain wall that surrounds Tycho is a perfect ring, fifty-four miles in diameter and three miles high. Exactly in the centre of the great flat floor inclosed within the ring, rises a mountain peak a mile in height, that shines brilliantly in the sunlight. In a good three-inch telescope, Tycho is an object of surprising beauty and ever-varying interest as the sunshine creeps up its outer wall, leaps down the terraced slope on the opposite side of the ring, and, sliding across the broad, level floor, climbs the central peak, and throws its long pointed shadow clear across the crater. For hundreds of miles on every side of Tycho the whole surface of the moon is broken and upheaved into jagged mountain masses, in which are many peaks loftier than the highest Alps, and some that equal the mightest of the Andes. The spectacle of the sunrise upon these mountains is magnificent beyond description. Some of the highest mountains in the moon lie along the edge of the disk, and are seen as in profile against the sky. Such are the Doerfel Mountains and the Leibnitz Range south of Tycho, which rival our Himalayas in height. On the telescope they give the edge of the moon a broken or scalloped appearance.

The vast dark plains, which were formerly supposed to be real seas, but in which modern astronomers see only the bottoms of seas whose waters disappeared ages ago, retain their old romantic names. There is the Ocean of Storms, covering a vast region in the eastern hemisphere. With its equatorial situation, and surrounded by some of the most gigantic mountains in the moon, it may have been, before the waters were stolen away, as tempestuous as its name implies. On the south of the Ocean of Storms projects a large bay of a remarkably green hue, which is called the Sea of Moisture, while on the north the ocean runs into the narrow Bay of Dew. Then there is the Sea of Showers, the largest of the moon's seas, or sea bottoms. Between the Sea of Showers and that brilliant portion of the moon called the Lane of Hoar Frost, lies the Bay of Rainbows, which, as the celebrated observers Beer and Madler thought, furnishes the most magnificent landscape in the moon. It is surrounded by lofty, shining cliffs. In the centre of the moon are the Sea of Vapours and the Bay of Tides. In the north are Plato, or the Greater Black Lake, the Sea of Cold, and the Marsh of Sleep, the latter being remarkable for its reddish hue. In Tranquility, the Sea of Serenity, the Sea of Fertility, the Sea of Nectar, and the dark Crisian Sea. The last-named, judging from its unusual depression, was probably the deepest of all the lunar seas, although the greatest length is only about 250 miles.

### France.

PARIS, June 24.—*Le Mot D'Ordre* this morning ridicules the ecstacies into which the Republican journals have fallen over M. Gambetta's speech, and compares the fetichism of which he is the object to that with which Sara Bernhardt is surrounded. This danger, it says, is like that of Sara's, namely, that he will lose his head.

Another radical paper entitled *L'Intransigent*, is announced to appear after the definitive vote of amnesty is passed. It is to be edited by Henri Rochefort.

Jules Simon declared yesterday that he will not vote for the amnesty in the Senate. Steps are about to be taken by the American colony to celebrate the 4th of July.

AN EXPERIENCED DUELLIST.

M. D. Houlerive has been as lucky in his third duel as in his first. Yesterday he wounded a M. Demolin badly in the wrist. He has to fight a fourth duel yet. They say the whole series grew out of a vulgar quarrel at cards, but there is the additional complication of a petticoat in the last affair.

A TRAGEDY IN THREE ACTS.

A tragedy in three rapid acts was played in real earnest at the Quai des Tournelles yesterday. Act first, a young woman waiting for the boat with her lover fell into the water and was rescued by a bystander. Act second—Immediately after she was fished out a young woman drew a knife from her pocket and stabbed her lover in the heart and shoulder. Act third—Before the horrified spectators could interfere, she turned the weapon against herself and fell dead beside the body of her lover.

### A Remarkable Cure.

One of the best testimonials to the efficacy of any medicine ever published in this paper is that of Mr. Charles S. Prentice, of Toledo, which will be found on the second page. He recommends Warner's Safe Kidney and Liver Cure as a remedy for Bright's disease, and supports his recommendation by giving the details of his fruitless effort to be cured of that malady by consulting eminent practitioners at home and abroad. Mr. Prentice refers to a number of persons who are prepared to testify to the truth of his statements. H. H. Warner & Co., proprietors of the medicine, are a prominent and respectable house at Rochester, N.Y., and would not urge the sale of a valueless nostrum. Any one suffering kidney or liver disease should give the remedy a trial—Lowell (Mass.) Journal, Nov. 28th, 1879. 6

### By Universal Accord,

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious and successful chemical investigation, and their extensive use by physicians in their practice and by all civilized nations proves them the best and most effectual purgative pill that medical science can devise. Being purely vegetable, no harm can arise from their use. In intrinsic value and curative powers no other Pills can be compared with them, and every person knowing their virtues will employ them when needed. They keep the system in perfect order and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required. For sale by all dealers. 4dw

### A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection, and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottle, 10 cents. *

ELECTRICITY! THOMAS' ECLECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity cured lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you, and want more now, its cures are truly wonderful." Wm. McGuire, of Franklyn, writes, "I have sold all the agent left, it acts like a charm—It was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Eclectric Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bepford, Thamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P. Q., writes, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay."

BEWARE OF IMITATIONS.—Ask or Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas*, is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other*. Sold by all medicine dealers. Price 25 cents. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

### A BYLAW
FOR RAISING A MUNICIPAL REVENUE ON REAL AND PERSONAL PROPERTY IN THE YEAR 1880.

1. Be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:—

2. There shall be raised, levied and collected in the year 1880 upon all real and personal property mentioned in the assessment roll in force in the City an equal rate of eight-tenths of one per cent. on the assessed value thereof as appears by the said roll.

3. The aforesaid taxes shall be due and payable by the person or persons liable for the same to the Collector for the Municipal Council at his office in the City Council Chambers, Victoria, on the fifteenth day of July, in the year 1880.

4. The Victoria Revenue Bylaw, 1879, so far as the same relates to the imposition of a tax or rate of eight-tenths of one per cent. in the year 1880 upon the assessed value of the real and personal property mentioned in the assessment roll for the time being in force is hereby repealed providing always that all payments of the said rate for the year 1880 already made by any person or persons shall be dealt with in the same manner and be as valid in all respects as if the same had been made after the passing of this Bylaw and under the provisions thereof.

5. The special rate imposed by the Water Works Debenture and Revenue Bylaw, 1877, and by the Bylaw to authorize the raising of twenty thousand dollars, 1878, shall continue to be raised, levied and collected in addition to all rates and taxes imposed under this Bylaw and shall be applied to the purposes specified in the said Bylaws respectively.

6. The annual tax authorized to be assessed, levied and collected by the Victoria Road Tax Bylaw, 1877, as amended by the Victoria Road Tax Amendment Bylaw, 1877, shall continue to be assessed, levied and collected in addition to the rates and taxes imposed by this Bylaw and shall form part of the general Municipal Revenue.

7. Clause 10 "The Victoria Revenue Bylaw, 1879," is hereby amended by striking out the word "three" immediately before the word "calendar" in the last line thereof and inserting in lieu thereof the word "one."

8. Schedule A of "The Victoria Revenue Bylaw, 1879," is hereby amended by inserting therein after the words "Every proprietor or manager of any theatre within the City limits for a single entertainment $5" the following words "and for a week $15," and by inserting therein after the words "and for the minor exhibitions for single entertainments $2 50" the following words "and for a week $7 50." And by striking out the figures $10 after the words "every commercial traveller" and inserting in lieu thereof the figures $20.

9. The Victoria Revenue Bylaw, 1879, as amended by the Victoria Amendment Revenue Bylaw, 1879, and by this Bylaw shall continue in force and all licenses and taxes imposed thereby shall continue to be collected thereunder.

10. This Bylaw may be cited as the Revenue Bylaw, 1880.

Passed the Municipal Council June the 29th, A.D. 1880.

J. H. TURNER,
WILLIAM LEIGH, MAYOR.
Clerk of the Municipal Council,
Victoria, B.C. jy3

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Ha vana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

### DYSENTERY, CHOLERA FEVER AGUE, COUGHS, COLDS.
DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)
# CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.
The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE.

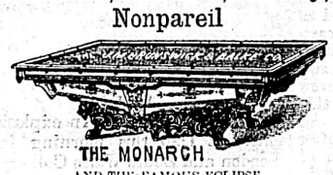

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.
**CHLORODYNE** is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
**CHLORODYNE** is the best remedy known for coughs, consumption, bronchitis, asthma.
**CHLORODYNE** effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.
**CHLORODYNE** acts like a charm in diarrhœa and is the only specific in cholera and dysentery.
**CHLORODYNE** effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.
**CHLORODYNE** is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."
Dr. Lowe, Medical Missionary in Ind reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.
Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."
See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.
CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.
Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.

### TESTIMONIAL.

GRANVILLE, BURRARD INLET,
June 18th, 1880.

MRS. CORDINER.
Teacher of Granville Public School.

DEAR MADAM:—WE, THE UNDERSIGNED residents of Granville and Hastings, having heard with much regret of your intention to relinquish your position as public school teacher, take this opportunity of respectfully urging upon you the reconsideration of such determination.
We have admired your assiduous, painstaking devotion to your work—a work at all times sufficiently onerous and trying—the favorable results of which have been repeatedly recognized at the public school examinations, and no less so in the more exact test of actual progress which we have witnessed in the uniform proficiency of your pupils; and furthermore, we also regard very highly the *methods* by which such favorable results have been attained in the wise combination of firm discipline with judicious kindness, which invariably secures success.
Therefore we are extremely desirous that you should continue to occupy your present position as teacher of Granville public school, and so carry on the good service to the public in general and the parents in particular, which you have so well performed in the past. Praying you to reconsider any determination which you may have made to the contrary, and hoping you may consequently comply with our sincere wishes in this matter,
We remain, yours respectfully,

# WARNER'S SAFE BITTERS

This remedy is the result of much scientific study and many careful experiments, and stands first among medicinal preparations of its kind. It is pleasant to the taste, and has staying qualities which render it powerful both to cure and to prevent disease, and also to build up a wasted and enfeebled body.
It is the best Blood Purifier, and stimulates every function to more healthful action, and is thus a benefit in all diseases.
In eliminating the impurities of the blood, the natural and necessary result is the cure of Scrofulous and other Skin Eruptions and Diseases, including Cancers, Ulcers and other Sores.
Dyspepsia, Weakness of the Stomach, Constipation, Dizziness, General Debility, etc., are cured by the Safe Bitters, and it is unequaled as an appetizer.
It is scientifically compounded from vegetable extracts of highly medicinal properties.
It corrects the evils of improper drinks, unwholesome food and over-eating, and is the best temperance substitute for alcoholic drinks.
The testimony of those who have used Warner's Safe Bitters is uniform in its praise.
It is a medicine which should be in every family, and which, wherever used, will save the payment of many doctors' bills.
Bottles of two sizes; prices, 50 cents and $1.00.

Warner's Safe Kidney and Liver Cure. Safe Diabetes Cure. Safe Tonic. Safe Pills and Safe Nervine are also superior remedies, unequalled in their respective fields of disease.
Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country.
